MEDICAL AND SURGICAL NOTES.

CHEMICAL ACTION IN POROUS FILTERS .- A acod filter is a sanitary instrument of great power. In the course of an examination Prof. Wanklyn has found that filtration through beds of porous materials includes very powerful chemical action, albuminoid matter being instantly resolved into animonia and other products by the action of the filter, which, indeed, says Prof. W., behaves in this respect like a beiling solution of permanganate of potash.

CONTAGIOUS DISEASES SPREAD BY FLIES.— Leurious and perhaps important discovery is stated to pex were often visited by flies, he placed near an open window of the hospital a saucer filled with glycerine. Soon the flies gathered and were caught like birds with glue. In their endeavors to free themselves, all the foreign matter which had adhered to them was left in the glycerine, which was at once submitted to observation with the microscope. It was found that the glycerine which was chemically pure when offered to the flies, was fail of strange cells very similar to those seem on persons attacked by small-pox, but never on flies—a discovery which proves conclusively that these insects are not only filthy, but can be a very dangerous means of spreading contagious discasses.

SATURDAY, NOV. 9-P. M. The general trade of the city during the week was interrupted by the occurrence of the election the day being observed as a hobday. Since then, however, there has been a fair business done, with some variations in prices. In breadstuffs a dull market has been the rule and prices have had a declining tendency, all the cereals being lower except rye, which made a little improvement. Groceries have been quiet, without any marked change in quotations. An unusually light busi-ness being done in dry goods the cotton market has been quiet, and the week closes with a lower marked change in quotations. An unusually light business being done in dry goods the cotton market has been quiet, and the week closes with a lower basis of prices. The weakness of the market is traceable to the free receipts and to unfavorable European advices. The receipts at all the ports for the week were 133,746 bales, against 120,465 bales last week; 113,148 the previous week, and 93,291 for the week ending Oct. 18. The total receipts since sept. I amount to 789,812 baffes, against 265,195 same time in 1871, an increase of 21,561. The exports for the week amounted to 70,325 bales, against 41,151 same time last year, an increase of 29,205 bales. The total stocks on hand foot up 318,779, against 297,186 hast year, an increase of 21,593 bales. The total stocks in the interior towns are 59,272 bales. The total stocks in the interior towns are 59,272 bales. The market closes on the basis of 1915, for low middlings.

The week in Wall-st. has not been characterized by any feature of special interest or excitement, the intervention of election day giving the market a broken appearance. Briefly, stocks have been dull and unsettled, though heavy withal, gold ruling strong and active, while Governments were quiet and firm. Money has been easy, though not quite so easy as during the preceding week. Among the brokers the rule has been 6 and 7 per 7 cent, though balances have been put out at 5, 4, and even 3. It should be understood, however, that these lower rates form no criterion of the market, but simply represent idle balances which are placed for what they will fetch. This case in the market and absence of demand arises partly from the decline in speculation since the result of the Presidential contest was assured. Since the election scarcely enough business has been done in stocks to occupy the services of a "Corroral's Guard" of brokers, and consequently the need for money has been light indeed. The future of affairs in Wall-st, asside from considerations of a foreign mature, are closely interwoven with the pro

decline was noted, but before and while the First Board was in progress, the complexion of affairs altered, and a rise in Pacific Mail from 39; to 22 and ½ to ½ per cent in the remainder of the list gave place to the weaker feeling. This was soon followed by another spell of weakness which lasted until nearly the closing hour of business, the decline ranging from ½ to ½ per cent. In this decline Pacific Mail, Union Pacific, C. C. and I. C., Ohios, and Lake Shore were most prominent. Western Union Telegraph, Rock Island, and N. Y. Central were less unfavorably affected. In the miscellaneous coal and express stocks, notbing important occurred. The market wound up with a steadier feeling and a recovery in prices, though the condition of affairs at London will doubtless influence the market to a great extent on Monday. The followed

ence the market to a great extent on Monday. The fol-lowing were the opening, highest, lowest, and closing prices of stocks: prices of active stocks, United States bonds, and rowest made during the past week, as well as the closing quo-ations of each on the dates undermentioned:

Union Pacific.
Hannibal & St. Joseph.
Atlantic Mail
Western Union Telegraph.
Pacific Mail.

The following is a componitive statement of the experts of specie from the port of New-York to foreign ports for 21 years for the week ending Nov. 9, and for the corresponding period in the undermentioned years: 1772. \$4,000,000 to 1872. \$2,507,001,1252. \$4,000,005. \$1772. \$4,000,005. \$25,507,001,1252. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1772. \$4,000,005. \$1872. \$4,000,005. \$1872. \$4,000,005. \$1872. \$4,000,005. \$1872. \$4,000,005. \$1872. \$4,000,005. \$1872. \$4,000,005. \$1872. \$4,000,005. \$1872. \$4,000,005. \$1972. \$4,000,005. \$1972. \$1,000,005. \$1,000

The very disastrous fire which laid waste a considerof Boston, involving losses amounting to per-haps \$300,000,000, will, as a matter of course. have a depressing effect upon the business of Wall-st, and of this city. The insurance companies, which will suffer heavy losses, will be compelled to throw will soffer heavy losses, will be compelled to throw large amounts of securities upon the market in order to realize ready money to meet their obligations, which will of course depress the markets; but it is to be hopes that the street may not take a panicky view of the subject. A temporary shrinkage of the values of securities is to be expected. Yet we should remember that we passed through the effects of the great Chicago fire, where the destruction of property was very much greater than that of Boston is likely to prove without a real panic; and that we soon substantially recovered from the effects of that fire. And so we can do this time if the business men of the city will only be calm and sensible.

Mr. Rufus Hatch, a well-known operator in Broad-st., sailed for Europe in the City of Brussels, on Saturday. It is understood that he goes to Germany and Holland in behalf of some fluancial scheme, the nature of which is perhaps best known to himself. Mr. Hatch has been very snecessful in at least two or three enterprises in the way of manipulating stocks for the rise, especially in connection with Mr. Stockwell and others in Pacific Mail, which by clever management was carried in a few months from about 40 to par and upward.

THE SAVINGS BANKS OF NEW-YORK AND

THE SAVINGS BANKS OF NEW-YORK AND NEW-ENGLAND.

The late numbers of The Bankers' Magazine contain lists of the savings banks of New-England, and the State and City of New-York, showing the number of the State and City of New-York, showing the number of depositors and amount of deposits in each, viz.: Massa-chusetts, 160 banks; Connecticut, 72: Rhode Island, 34: New-Hampshire, 54; Maine, 50; State and City of New-York, 147. From these official returns it appears that the comparative savings deposits in these States are as follows:

THE MARKETS.

ASHES—The receipte to-day are I pkg. Pots are quiet and an echanges at 58 23. Fearls are doll not nominal.

COTTON—The demand for Cotton on the spot has been saly in ited, and prices are to lower, and the market closes small. We quote a follows:

quote:

curn Meal, Western. \$2.25 # \$3.50 Corn Meal, Byte... \$3.85 # \$4.3 %
Corn Meal, West W. 3 10 # 3.25 Corn Meal, Gyld's R. - ポ 3.25
Buckwheat Flour is less plenty and is firm, with a more general demand; sales of State at \$3.75 # \$4.15, and \$4.15 # \$4.60 for Fennsylvania, \$7.00 B.

Canadian Plour weaker; sales of mixed brands of Winter Wheat Extras at \$3.00 h Butras at \$3.00 h Burley at \$3.00 h Bur
